I very much appreciate your thoughtful letter of October 22nd and the kind things you had to say about my brother.

When you were at my brother's grave the other day you apparently observed only one side of the monument stone. On the North side of the monument is inscribed his name, military rank and dates of birth and death. However, his name also appears on the South side of the monument together with his title of Secretary of State and the dates he served in that office.

Again many thanks for your thoughtfulness.

Sincerely,
